Objective - I've spent over 40 hours working at CFTB, and I know the ins and outs of their systems very well. I love being able to use my skills to help people and make their lives easier, and I'm always looking for new ways to improve my abilities. Whether it's troubleshooting a tricky problem or designing a new program, I'm always up for a challenge. And with my experience and knowledge, I'm confident that I can handle anything that comes my way.

EDUCATION

12th grade, Location — *Coppell High School*

I am currently a 11th grader and have experienced two years of highschool. I learned a lot about myself and where I want my career to go.

Clubs

2021- 2023

TSA — Team leader (2021-2022)

TSA was a great learning experience for me because I learned a lot about leadership. At CHS, this was the first year of starting a vex robotics program. I was elected to be a team leader of a group of 6 people including me.

Swimming — JV swim (2022-2023)

Swimming has been a big part of my life this year because I made the swim team. It taught me that hard work and determination will pay off. The skills I have learned from swimming will help me in the pool and out.

SKILLS

Leadership skills- I have lots of leadership skills with my experience leading a robotics team.

Good with computers - I have gathered lots of experience about how computers physically operate from my experience at CFTB

Volunteering

CFTB- 44 hours

At CFTB I have built computers for the visually impaired.

Achievements

Boy Scouts- I am in the star class in Boy Scouts and I am an Assistant patrol leader.

Taekwondo- I am a black belt in Taekwondo. It taught me discipline to finish a goal from a young age.

Robotics - In summer 2019 I won the VEX robotics tournament championship at a summer camp in Metea Valley Highschool.
