Summary

Self-taught technologist pursuing a career in the Cybersecurity industry with a passion for Programming and all things related to I.T. My main strengths are resourcefulness, grit and determination. My aim is to demonstrate my learning journey to the world through projects.

Experience

Red Team Engineer Intern

Virtually Testing Foundation

Jul 2023 - Aug 2023 (2 months)

Student

NPower

Mar 2023 - Jul 2023 (5 months)

Preparing for my Security+ exam

Cybersecurity Engineer

Virtually Testing Foundation

May 2022 - Jul 2023 (1 year 3 months)

Apprentice

HCLTech

Jul 2022 - Sep 2022 (3 months)

Education

Rightvarsity

Apprenticeship, Cybersecurity

Sep 2023 - Oct 2023

An apprenticeship that is currently on-going where we will build a strong foundation so we can be prepared for blue team positions. This will help me get into other positions that attract me in Cybersecurity.

Coursera.org

I.T, Google IT Professional

2021 - 2022

Taking courses for the Google IT professional program.

ChooseU

Jr. Cloud Computing

May 2021 - Aug 2021

I learned about the different services from AWS cloud computing services and the essentials of administration like Linux and the basics of scripting like Python. I opted out from the Cloud essentials exam that many of my peers took because there are other certificates that are more in line with my goals like SysOps and Devops.

Tryhackme

Information Technology

2021 - Present

Completing the pathways and modules to learn the necessary skills to be successful in Cybersecurity

edX

freeCodeCamp

Licenses & Certifications

Foundations of Operationalizing MITRE ATT&CK - AttackIQ
